

## Our dental imaging services

- Sunshine Coast Radiology is pleased to provide a comprehensive range of Dental Imaging and Reporting services on the Sunshine Coast.
- In line with our mission to provide the highest quality radiology services to achieve the best health outcome for every patient, we also offer specialised Dento-Maxillofacial Radiology Reporting.
- These services are provided by our DMF Radiologists; Dr Jacqui Dalton, BDS, DCLin Dent (DMFR) and Dr Scott McNab, BDS (Hons), MDS (Orthodontics), DCLin Dent (DMFR). They bring their advanced experience and knowledge to the Sunshine Coast Community.
- All Cone Beam CTs and Dentascans are reported by our DMF Radiologists.
- DMFR reports for OPG can be requested by ticking the box on our Dental Radiology Referral form.

## Our DMF Radiologists

### Dr Jacquie Dalton

Completed her Dentistry degree at the University of Queensland in 2002. Over the following years, she gained experience as

a Dentist in both private and government practice and paediatric dentistry, before completing her Doctorate of Clinical Dentistry in the specialty of Dento-Maxillofacial Radiology at the University of Queensland. Dr Dalton has researched and published a number of papers in the field of DMFR. She is a member of the international DMFR association and has special interests in pathology and paediatric radiology.

### Dr Scott McNab

Graduated from the University of Queensland Dental School in 1991 with First Class Honours. After several years working as a dentist,

Scott returned to the University of Queensland in 1996 to begin his postgraduate training in orthodontics. After a decade working as an orthodontist, Scott obtained the degree of Doctor of Clinical Dentistry in Dento-Maxillofacial Radiology. Scott holds dual specialist registration with the Dental Board of Australia in Orthodontics and DMFR. He is particularly interested in the application of three-dimensional imaging in orthodontics and research into temporomandibular joint disorders. He is a member of the Australian Society of Orthodontists and the Australian Dental Association.
